

HOW "TIPPECANOE" HARRISON WAS SAVED.

The battle of Tippecanoe was fought November 5th, 1811, in Indiana, on the banks of Tippecanoe River, on the site of the present village of Battle Ground, between the Americans under General Harrison, and the Indians under the Prophet, Tecumseh's brother.

After the famous battle until the end of his days General Harrison, grandfather of President Benjamin Harrison, was known by the loving sobriquet of "Tippecanoe."

Following his brilliant achievements in arms, now more than three-quarters of a century ago, General Harrison, together with many of his troops, was stricken with disease contracted through lack of proper food, and exposure to the miasma of that section of Indiana, and for a time his life was despaired of. Several of his command lay for weeks, suffering the horrors of disease upon the banks of the Tippecanoe River, which rises in a lake of the same name in the northern part of the state, flows southwest 200 miles and empties into the Wabash nine miles above Lafayette. General Harrison's troops were threatened with decimation, and the skill of the army surgeons was employed in vain to combat a more terrible and deadly enemy than even the hostile aborigines under Tecumseh's brother.

But relief came at last. General Harrison very sensibly concluded that residents of the neighborhood—may, the Indians themselves, knew nature's specific for the disease which had prostrated him and many of his command, and instantly set on foot enquiries with a view to ascertaining and applying the remedies. They were speedily found and put to test, and worked like a charm. Under their use the stricken soldiers were promptly restored to their wonted good health and vigor.

The medicines were preparations of simple roots and herbs, based upon very old-fashioned but effective and natural formulae. Their intrinsic merits have been known and utilized for generations among people living in remote and malarial sections of the country.

Many of these invaluable formulae have within the last two years come into possession of Hon. H. H. Warner, president of the Rochester Chamber of Commerce, owner of the largest proprietary medicine manufactory in the world, and whose Safe Remedies have conferred a lasting boon upon mankind, being recognized as standard medicines throughout the civilized globe.

In 1887, Mr. Warner, after careful experimenting and trial put upon the market Warner's Log Cabin Remedies, based upon the formulae which have cured thousands of debilitated sufferers, not only on the banks of the "Tippecanoe," as above related, but everywhere where introduced.

These Log Cabin preparations are designed for an entirely different order of diseases to which the Safe Remedies are applied, among them are Warner's Log Cabin Sarsaparilla, Warner's Log Cabin Cough and Consumption Remedy, and Warner's Log Cabin Hops and Buchu Remedy. Suffering flees before them as a pestilence flees before the purifying breath of heaven, and they are sold everywhere.

Tenderfoot (in a new Kansas town)—"Where is the post-office?" Resident—"Over there." "Where?" "D'ye see that man sawing wood? He's the post-master."

"Yes, but I don't see the postoffice." "Of course you don't. It's in his hat."

"Had been Worried Eighteen Years." It should have read "married," but the proof-reader observed that it amounted to about the same thing, and so did not draw his blue pencil through the error. Unfortunately there was considerable truth in his observation. Thousands of husbands are constantly worried almost to despair by the ill-health that afflicts their wives, and often robs life of comfort and happiness. There is but one safe and sure way to change all this for the better. The ladies should use Dr. Pierce's Favorite Prescription.

Examine into your own shortcomings, rather than those of others. From "modern advice."

Coughs, Hoarseness, Sore Throats, etc., quickly relieved by BROWN'S BRONCHIAL TROUSERS. A simple and effective remedy, superior to all other articles for the same purpose. SOLD ONLY IN BOXES.

A deferred question: Stranger (in the court-room)—"What time have you got, please?" Prisoner (at counsel's table)—"I can tell you better after the trial."

TETTER. A member of the Pioneer Press staff, troubled for eleven years with obstinate Tetters on his hands, has completely cured it in less than a month, by the use of Cole's Carbolic Cure. PROSESS PRESS, St. Paul.

Obituary notes in a Louisville (Ky.) paper: "Thus doth old time still swing his lusty scythe, and thus shall it ever be till time is no more."

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

"What is love?" It's a feeling that you don't want any other fellow going around with her.

Deafness Can't Be Cured by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

KANSAS STATE NEWS.

At Cottonwood Falls Roy Watson, about 13 years of age, killed himself with a revolver. He was loading it.

Gaylord Herald: Numerous additions have been made to the public library during the past few weeks, principally by donation.

Winona Clipper: While assisting to load an engine into a car at the switch, Martin Kismore met with a painful accident, whereby he lost a portion of one finger and mutilated another.

"BRIGHT'S DISEASE" has no symptoms of its own," says Dr. Frederick Roberts of University College, London. First get rid of kidney disease by using Warner's Safe Cure, then the effects of symptoms will be removed.

Chetopa Democrat: we have a sample of crude petroleum at this office taken from a well only a few miles from this city. We extend a cordial invitation to all interested in Kansas products to call and examine it.

At Ellsworth a two hundred foot vein of salt was struck on the east of the city and two miles or more from the first two wells. Two companies are now organized and another is forming to commence sinking shafts for the purpose of mining this salt.

Arkansas City Democrat: Mr. A. O. T. Pennington, of Kansas City, has been appointed to succeed Major Gunn as local agent of the Missouri Pacific. Mr. Pennington is the gentleman who recently incurred the displeasure of the Rock Island at Kansas City.

Arkansas City Democrat: It is reported that in compliance with requests from the interior department at Washington, the Santa Fe refuses to sell tickets to stations lying between this city and Gainesville, Tex. The object is to prevent a rush of land grabbers into Oklahoma before the country is lawfully open to settlement.

The Kansas Star, at Olathe, says: "This institution has the past ten days been visited with more sickness than at any time during the past four years. At one time there were ten beds in the hospital with occupants. Night and day nurses have been in attendance all the time, and much of the physician's time has been required."

Soldier City Tribune: Some hog stealing has been reported to have taken place in Havensville. It seems some parties went to a man's hog lot a short distance in the country, and killed a porker, leaving a trail of blood, however, which was traced to a wagon in the timber, thence to Havensville. Upon hearing that warrants were being sworn out two young married men skipped the town on horseback.

Dighton Journal: A few days ago Hod Harvey showed us the piece of music which he composed for the campaign last fall, but being unable to get it printed in time it was used on but few occasions. It is entitled "Inaugural March," and is very pretty. It was printed in time for use at the inauguration of General Harrison. The publisher speaks very highly of the production and we feel proud that Lane county claims the author. Hod is an expert in music.

Wm. Rozerts, M. D., Physician to the Manchester, Eng., Infirmary and Lunatic Hospital, Professor of Medicine in Owen's College, in speaking of kidney disease, says: "One-third die of uric acid poisoning. A considerable number of dropsy. One-fifth from secondary pneumonia, pericarditis (inflammation of the heart sac), or pleurisy, exhaustion, indigestion, or the complications of apoplexy, hardening of the liver, bowel ulcers, etc." The foregoing are only a few of the common symptoms of advanced kidney disease, and this explains why Warner's Safe Cure cures so many different symptoms, called diseases, and why it has such popularity. Ask your friends and neighbors about it.

St. Francis Plaiddealer: James Creighton, of Washington county, Kansas, brother-in-law of Wm. McCullum, of Cherry Creek, has purchased a tract of land two miles west of town for the purpose of engaging extensively in the stock business. Mr. Creighton is a man of considerable means and will be an acceptable acquisition to Cheyenne county. We knew Washington county when it was about as wild as Cheyenne county, with a great deal less prospect of early settlement and railroad facilities, but now several good towns are within her borders and the agricultural portion of the county will compare with any country in the world. Cheyenne county will make greater strides toward agricultural supremacy than any counties in the eastern portion of the state for then "bleeding Kansas," as it was called, was not an established success as a farming state, as it has since proven itself to be.

Valley Falls New Era: There was great excitement in the city when the drill men in the prospect hole drew up their diamond and discovered that they had passed through a three foot vein of something that looked very much like an excellent quality of canal coal. Little pieces of the core were carefully examined on all the corners by anxious people and differences of opinion existed as to what the substance was; some who had had lots of experience with canal coal positively asserting that it is a good quality and others just as positively denying it is anything but valueless lignite. Township Clerk Tutt has sent a piece of the mineral to Prof. Hays, government geologist for examination. The prospectors are still drilling and we will see what we will see. In our imagination now we can see in the near future for Valley Falls 10,000 inhabitants, factories, foundries and machine shops, a busy, rattling city. So note it be. But seriously if it turns out that our find is what many anticipate, we have the best thing in the state. Hutchinson salt, Newton sugar, nor

Oklahoma real estate will not have the edge on Valley Falls canal coal. The vein was struck at the depth of 810 feet.

STOCK AND FARM.

Basine Leader: All over the county the farmers are busy plowing, making garden, and preparing to put in big crops this spring. This is the 15th of March. Wonder if the farmers of the eastern states are plowing for corn yet?

Wamego Reporter: The third annual stock breeders' show, at Olsburg, will be held Saturday, April 6, 1889. It promises to be of unusual interest both in number of animals exhibited and the high grades represented. All stockmen are invited to be present, and exhibit their stock. Brass bands will furnish music; there is a first-class half-mile track adjoining town, and plenty of amusements and recreation will fill the day with interest. The county press association will also meet at Olsburg on this date.

Augusta Journal: The creamery building is nearly ready for the machinery which will be here soon. It is a model building for the purpose for which it is designed and is up to the contract in every particular. Let the farmers now be prepared to furnish abundance of milk and the enterprise will be a success from the time the machinery starts. A good common cow will give four gallons of milk per day. This is about thirty-five pounds of milk, or 225 pounds per week, worth \$2.25. Ten such cows bring in \$22.50 per week, or \$89 per month. Now where is the farmer who is making over \$90 per month out of ten cattle of any kind? Almost any farmer can care for ten cows and raise a corn crop besides. Is there anything that will pay better than this? We believe that the creamery is just what the farmers need if they will take advantage of it.

KANSAS G. A. R.

Osborne Journal: The G. A. R. social was a very pleasant affair. The attendance was large and everybody was on his good behavior and happy. Besides the singing by the comrades and a solo by Miss Minnie McBride, speeches and remarks were made by the following gentlemen: Hon. Lewis Hanback, Hon. W. H. McBride, D. G. Robertson, Ben Kelley, Joe Hanna, Al Anderson, S. B. Farwell and H. F. Hillebrandt. The order should hold more of these socials. They benefit society.

Topeka Journal: The committee appointed to secure suitable rooms for the headquarters of the G. A. R., has selected and leased the west front room on the second floor of the Y. M. C. A. building recently occupied by Judge J. W. Day. The furniture belonging to the department will be shipped to the city this week. The ladies of the post auxiliaries will be called upon to decorate the headquarters as only the deft hands of woman can, and a merry housewarming or social will probably be given in the rooms as soon as they are ready for occupancy. Assistant Adjutant General Wilson will provide a visitor's register for the office, wherein all visiting comrades may enroll themselves when they call, being always welcome.

By wire from Ellsworth: At a meeting of the citizens called by the mayor, a large number met at the court house to make preparations for the reunion of the Grand Army of the Republic this fall on their own land adjoining this city. Probate Judge Seigmiller was chosen chairman and Ben Fagan secretary. An executive committee of twenty-seven, representing every section of the county, was selected. A committee of thirteen on entertainment was appointed. A finance committee of thirteen and two transportation committees. The executive committee was then empowered to appoint all the other necessary committees and the meeting adjourned. It seems to be the determination of the people of this county to make this the most successful meeting in the history of the Grand Army of the Republic in this state, and it is fitting and proper it should be so, as they have not only their own home but the finest in the world.

KANSAS CHURCHES.

Chetopa Advance: The colored citizens of this vicinity are building themselves a handsome school and church house combined on Big Timber Hill.

Manhattan Nationalist: Manhattan will this year have the annual meeting of the Congregational church and also the annual meeting of the Christian church.

Wamego Agriculturist: Rev. Park is earnestly interested in the protracted meetings at the Presbyterian church, and is meeting with encouraging success in the way of large congregations and attentive hearers. Rev. Milner of Manhattan has assisted him.

Marysville News: The Presbyterian church at Frankfort, has secured the pastorate services of Rev. Geo. Gibson, of Princeton, Ill. He is of pleasing address and disposition and we congratulate the church on its good fortune and bespeak for the doctor a cordial welcome.

By wire from Larned: The southwest Kansas conference finished its labors: The presiding elders appointed were, for the Garden City district: A. P. George; Larned district, Harrison Wait; Newton district, J. L. Hanna; Winfield district, T. S. Hodgson; Wichita district, J. D. Botkin.

Marysville News: Rev. Weiman, the Presbyterian minister, of Vermilion, is becoming quite popular and although the church building is quite a large one, seating capacity is insufficient to accommodate all the people that come out to hear him. Sunday morning and evening quite a number of people could not obtain admittance, the house was so full. Mr. Weiman is a very pleasing gentleman and is sincere in his belief and teachings and has made a host of friends here.

Time Rolls Its Ceaseless Course.

Invention has been succeeded by invention, tending to the benefit of mankind; till the very elements have become subservient to his will. Witness the lightning train to become a fleet and trusty messenger, the placid water converted into a power, the like of which surpasses the understanding.

The cunning, craft and ingenuity of man have achieved wonders for his amelioration, comfort and requirements. Under this connection it may not be out of place to note of what service Dr. Hays has been to his fellow men in discovering and compounding, safe and reliable medicines for the relief of pain, and for the cure of disease.

Dr. Hays's Medicines are long and favorably known to the public, have never been more popular than at the present time. Their excellence extends all over the world. They are alike welcomed by the rich as by the poor. In all properly stored homes Hays's Relief, Sarsaparilla, Resolvent or Hays's Pills are sure to be found. Dr. Hays's Medicines can at all times be relied upon, each to perform its proper function.

Hays's Ready Relief is a sure antidote for pain; is quicker in its operation, and more powerful than any other preparation; while it is entirely free from the dangerous effects of many which numb the senses and clog the circulation. Hays's Ready Relief is safe, reliable and effective because of the stimulating action which it exerts over the nerves and vital powers of the body, adding tone to the one, and exciting to renewed and increased vigor the slumbering vitality of the physical structure, and through this healthful stimulation and increased action, the cause of the Pain is driven away, and a natural condition restored. It is thus that the Ready Relief is so admirably adapted for the cure of pain and without the risk of injury which is sure to result from the use of many of the so-called pain remedies of the day.

Hays's Sarsaparilla Resolvent is the great Medical Discovery of the age for the cure of chronic diseases, such as Scrofula in all its forms, Syphilis with its treacherous train of evils, and Cutaneous diseases of all kinds, often so difficult to cure and yet so formidable an antagonist to good health and to good looks. Hays's Pills the only reliable substitute for Calomel or Mercury, are still the people's favorite purgative; and a sure cure for constipation, indigestion, palpitation and the kindred diseases of the bowels, liver and stomach that result from over eating or use of improper food or improper use of stimulants, or overflow of bile in the blood, and all cases where a purgative cathartic, aperient or laxative medicine is required.

Dr. Hays's Medicines can be had of any Druggist or at most of the country stores.

Badeau is constantly claiming that somebody owes him something, thus rendering himself odious.

Consumption Surely Cured. To The Editor: Please inform your readers that I have a positive remedy for Consumption. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address. Respectfully, T. A. SLOCUM, M. C., 181, Pearl St., N. Y.

A peacock soon has his tail pulled out.

FOR CHICKEN CHOLERA.

419 Huron St.,
Shelby, Wis., Nov. 12, 1888.
I have used St. Jacobs Oil for chicken cholera with great success. Every fowl affected with the disease was cured by it and I recommend it as a sure cure. It has saved me many dollars.
H. A. KUENKE,
Breeder of Fine Fowls.

MIRACULOUS RESTORATION.

That dainty lady tripping by,
How light her step, how bright her eye,
How fresh her cheek with healthful glow,
Like roses that in Maytime blow!

And yet few weeks have passed away
Since she was fading, day by day.
The doctor's skill could naught avail;
Weaker she grew, and thin and pale.

At last, while in a hopeless frame,
One day she said, "There is a name
I've often seen—a remedy—
Perhaps 'twill help: I can but try."

And so, according to direction,
She took Dr. Pierce's Favorite Prescription,
And every baleful symptom fled,
And she was raised as from the dead.

Dr. Pierce's Favorite Prescription is the world-famed, invigorating tonic and nerve, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable and perfectly harmless in any condition of the system. It is the only medicine for the distressing weaknesses and derangements peculiar to women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrappers, and faithfully carried out for many years.

Copyright, 1888, by WOMAN'S DISPENSARY MEDICAL ASSOCIATION, Proprietors.

Dr. Pierce's Cathartics, or Anti-bilious Granules, are Laxative or Cathartic, according to size of dose.

Rheumatism

"I have been a victim of rheumatism for the past six years, and I have tried various remedies, but none gave relief until I used Paine's Celery Compound. The effect was wonderful; in two days I was relieved of all pain, and when I had used one bottle I felt better than I had for a long time."

D. H. GILL, Belton, Mo.

Paine's Celery Compound

has undoubtedly cured more cases of rheumatism, which had resisted other treatment, than all other rheumatic remedies combined. If troubled with rheumatism or neuralgia, use Paine's Celery Compound at once—a few doses will prove its unequalled value.

\$1.00. Six for \$5.00. At druggists.
